

## College of Arts and Sciences

Georgia State University provides professional licensure information for current and prospective students who are interested or enrolled in University programs that may lead to professional licensure. Each state/territory defines its own requirements for licensing and certification in professional fields.

**The information below highlights the professional agency associated with the designated program and we have identified whether the program *meets or does not meet* licensure requirements for all 50 states. Where no determination has been made, we have stated so and encourage follow up with the college.** This is not a comprehensive list, but it is intended to provide a starting place for searching and verifying licensure requirements. If you are considering a program that leads to professional licensure or certification in the College of Arts & Sciences and have additional questions, please contact [Erin Brooke Tone](#).

### PhD in Psychology, Concentration in Clinical Psychology
